Narrator (voice is a younger woman's voice): On this week's episode of Desperate Housedogs™:

Owen feeds his bulging tummy, but why is his wounded knee still not getting better? Is his feeding frenzy killing his rehab? Will Brandon cure him of his limp with some not so skinny skinny dipping in the pool?

Greta marries Amare. Is this a case of real Amoure for Amare, or is he just getting even with his assumed best friend Gus, who already tied the knot with Owen? Or is Greta getting back at Owen for eating her high calorie food? And why did Gus marry Owen anyway? Is it love at first sight, or simply a way to justify more under the table meal deals?

Meanwhile, in the backyard, the scaries from Scarsdale are barking, scratching and tunneling. It has been two months since the hullabaloo in the house when Andre the Giant Head put Owen on his butt. Now with the help of his sidekick, L'il Mikey, will the barbarian bulldogs find their way into the house somehow and disturb the paradise of Mimi's Heaven. Or will Popi stop the home invasion by fixing the fence or locking the doggie door?

And what did Andre eat to make him so sick. Is it a wayward whiffle ball, or something more sinister.... like some bad roast beefor some freshly laid fertilizer.

Tune in to this week's episode to see more, or just ask Bebe T... she's seen them all.
